

Nuclear Bible Author Fights For Swiss Asylum After Super Bowl Nuke Terror Plot Is Exposed

In the case of “The Real Wikileaks”, author David Chase Taylor is fighting for Asylum in Switzerland since the release of *The Nuclear Bible* stops nuclear terror plot in Dallas, Texas, on February 6, 2011

David Chase Taylor

ZURICH – In documents submitted to the Swiss Government regarding his case for Asylum, author David Chase Taylor believes he has ample reason to fear retaliation for the release of information within *The Nuclear Bible*.

Taylor applied for Asylum in Switzerland on March 8, 2011, but has only received a case number (ZH 2266202) to date. Despite applying for Amnesty over 90 days ago, Taylor has yet to receive a formal hearing regarding his plea.

“I am 100% sure that should I ever leave Switzerland, I will disappear forever”, Taylor stated. “The information within *The Nuclear Bible* is so damning because it basically caught the U.S. Government red-handed attempting to execute a false-flag terror attack at the Super Bowl, and it lays out the entire World War III nuclear scenario between the U.S. and Pakistan.”

Evidence regarding Taylor’s claim that *The Nuclear Bible* did indeed stop a nuclear attack in Dallas, Texas, on February 6, 2011, is substantiated within this article and in detail at www.nuclearbible.com.

Taylor cites Julian Assange of Wikileaks as precedent for Asylum because Assange could face the death penalty and torture if extradited from Sweden to the U.S. Taylor has also provided the Swiss Government with information that the Obama Administration has authorized torture as well as the assassination of U.S. Citizens, regardless of where they live.

When asked about his feelings on the situation, Taylor stated, “My biggest fears regarding this case are being set up on fraudulent charges, incarceration, extradition, torture and/or assassination by governmental authorities. Aside from that, it’s all good.”

Officer Olivier Ruembeli of the Swiss Federal Police has contacted Taylor on numerous occasions and stated in an email that “It is very important that we can meet” and that “You have contacted several U.S. Intelligence Services to provide them with information. It is within this framework and their demands that we act.”

Taylor has repeatedly declined meeting with Swiss Authorities and has stated that all information presented in the book is public and that *The Nuclear Bible* is triple-sourced.

Taylor has asked friends, family and peace lovers worldwide to pay attention to *The Nuclear Bible* case by alerting both mainstream and alternative media outlets.

The Nuclear Bible

The Nuclear Bible is composed of over 1,000 news articles which ultimately connect the dots of an upcoming false-flag nuclear terror attack. Due to the 30-60 second nature of a nuclear explosion, it is highly likely that a TV sporting event with millions watching will be targeted, such as the World Cup, Olympics, or NFL Super Bowl. Aside from openly exposing the Super Bowl XLV nuclear terror plot in Dallas, Texas, *The Nuclear Bible* also exposes the following:

- The Bi-Polar Nuclear Presidency of Barack Obama
- The Six Hijacked 150 Kiloton Nuclear Warheads from Barksdale Air Force Base in Louisiana in 2007
- Real US, EU & Israeli Nuclear Proliferation
- Pakistan: The Scapegoat of Nuclear Terror
- The FEMA Concentration Camps in America

The Super Bowl XLV Memo

On January 11, 2011, the U.S. Department of Homeland Security, the FBI, the Dallas Police Department, the Arlington Police Department, the United States Northern Command, the National Counterterrorism Center and the National Geospatial-Intelligence Agency released the following memo:

Super Bowl XLV: Joint Special Event Threat Assessment:

No credible terrorist threat to Super Bowl XLV... Lone offenders pose a threat to any large event like the Super Bowl... One or more improvised explosive devices (VBIEDs) in or near the stadium would be the preferred method of attack by terrorists... Terrorist or criminals might try to gain access to restricted areas by impersonating government or military officials or emergency personnel... Recent events serve to highlight potential risk posed to Super Bowl XLV by individuals breaching security using false media credentials.

February 06, 2011: George W. Bush Cancels Trip To Switzerland (New York Daily News, 2011)

After canceling his trip to Switzerland, George W. Bush attended Super Bowl XLV in Dallas, Texas. Coincidentally, on 9/11, Bill Clinton was in Australia and Al Gore was in Austria.

Pakistan: The Scapegoat of Nuclear Terror

As the Commission for the Prevention of Weapons of Mass Destruction Proliferation and Terrorism stated, “Were one to map terrorism and weapons of mass destruction today, all roads would intersect in Pakistan.” Pakistan has been linked to almost every case of terrorism and nuclear proliferation on record and is sure to take the blame for nuclear terror. The following incidents of terrorism and nuclear proliferation have all been linked to Pakistan, whether they know it or not:

Pakistan & Terrorism

February 26, 1993	First World Trade Center Bombing in NY, NY, USA (Wikipedia, 2011)
December 11, 1994	12/11 Bombing of Philippine Airlines Flight 434 (Wikipedia, 2011)
January 1995	Bojinka Plot (Assassination of Pope John Paul II and Bombing of 12 Airliners) (Wikipedia, 2011)
